hope he has plan B because relying on compromised bought and paid for politicians isnt gonna end well

law is a human creation, like kids making rules on a playground. You need weight to swing around and consequences for not following the law if you expect anyone in politics to listen

I know this is controversial opinion here but I don't think Trump is planning on a revolt. He is not a violent man at all. If they don't overturn it on Jan 6, then it's probably over.

I am afraid that if congress tries to certify a fraudulent state, violence will erupt and our nation will tumble into chaos. Let's hope congress does what everyone knows is the right thing, and does not certify fraud.

I am afraid that if congress tries to certify a fraudulent state, violence will erupt and our nation will tumble into chaos. Let's hope congress does what everyone knows is the right thing, and does not certify fraud.

why are you afraid of it tumbling into chaos?

the chaos is already here. they've already told you that they're going to fake elections, saddle you with massive debt, steal directly from you, and then tell you to fuck the fuck off. they're committing treason and embezzlement and telling us to sit down and just take it. that's not happening.

seth rich got redacted.

kemp's daughter's boyfriend got redacted.

hundreds of other individuals who went up against the deep state uniparty crime syndicate all got redacted.

now it's these traitor politicians who will be redacted.

think i'm joking? go watch any of the covid videos of people standing up to cops with this covid lockdown bullshit. i've seen at least 5 in the last week where the cops in these videos outnumber the patriots 5 to 1 and the cops' body language shows THE COPS ARE CLEARLY VERY AFRAID of these patriots. they fear us because we know

we're morally right, they know we're morally right, and when shit finally hits the fan, we outnumber them 5000 to 1. back the blue? fuck the blue. nuremberg trials established "just following orders" is not a defense. free patriots have far too long been at the mercy of men "just following orders".

never again.

any cop who defends the tyranny of this illegitimate coup is no less an enemy of the state than the politicians giving those orders. the good cops are welcome to stand by the side of the patriots, as i expect many will.

january 6 is the time to show them what "consent of the governed" means.

Damn I love everything you're saying. Not to be a wet blanket, but play the whole thing out in your head though. Sure, patriots could take the Capitol. Then what? How do you hold it? How long can you hold it? What if Trump uses the insurrection act against you, his biggest supporters, because he believes in law and order?

If there comes a time for revolution we need to win. And we need all our soldiers not dead and not in jail. We need to be smart. I support your right to do whatever you gotta do, but also I ask you to value your lives and the chance to fight over and over again to win the whole war.

IF things got out of hand, Trump will use the Insurrection Act and shut it down. No way he will let arsonists and rioters run rampant if state governments allow it. As Rudy said the other day, Gloves Off !

Regardless, we cannot act according to fear of threats. No Compromise.

I think we've been teetering on the very edge for a long, long time now. If it tips, there's no putting that spilled milk back in the glass. It'll be out, it'll change a lot of our daily lives in very substantial ways. The gravity of this isn't hitting most people.

But I believe it's completely inevitable at this point.

It is 100% inevitable. Either fight now, with a better chance of support by the Military and Trump. Or fight when Biden/Harris come for the guns and have a much smaller chance of military support.

Option 2 is far more deadly because the Military would split entirely. Some would support the revolution while others “just followed orders”.

If Trump is the CNC, most of the military would likely support his cause and ours. I.e saving the Republic.

I agree. We are never returning back to a relatively "normal" pre-9/11 America, especially with the ill will that has been generated over a blatantly fraudulent election. There will be blowback in some form, and people are already seeing personal relationships dissolve over politics. There will definitely be more altercations in the future, at the very least.

Fuck that. Great men of his caliber NEED to lead us into battle. Not "pass the ball" to the people. He's the President of the United States for God's sake!

He could easily take this nation back with a simple tweet or a emergency broadcast. "Patriots. We were attacked. A great domestic enemy, with the aid of foreign adversaries has rigged the election. Arm yourself and take your state's capital building. Our special forces will deploy and aid your rebellion followed by the military under my orders. We must defend our constitution."

If Trump allows the peaceful transition of power, knowing 100% for fact that the election was stolen and DOES NOT lead a physical fight to defend this country and our constitution, he will be considered America's most cowardly President.

This nation was attacked. His first and foremost duty is to protect our nation from harm. He has a duty and I don't want to hear this goal post shift letting him cuck out and put ALL the responsibility on us.

I want fire and fury. I want US against the establishment with Trump at the helm.

Although I would have liked to see some action sooner than later, I'm still holding out for whatever happens on the 6th. Realistically, what could have been done directly post the election? They certified fraudulent votes following a obviously unconstitutional election in several key swing states. At first I thought the courts would uphold the constitution. I was wrong.

I don't blame Trump for not intervening right away with something like the insurrection act or similar action. The left would have took the dictator route. Now it appears he's letting the evidence pour out and letting the chips fall with who's really loyal to him and American people Vs. who is establishment to the core.

Now we are at the 12th amendment in relation to Pence as the President of the senate presiding over the counting of the electoral votes on the 6th. I'm extremely confused regarding what Pence's powers are regarding his duty. Some claim he can simply not count contested votes from the electoral college. However, I'm convinced that even constitutional scholars are at a loss with the powers Pence has. Time will tell.

However, I think I understand why Trump hasn't acted sooner. I've been wrestling with that for a few days. The 6th will be a breaking point and I think that is why Trump has placed his base in DC for that. It will be very interesting to see what is to come.

HAHAHAHA. You don't need organization?

You won't even know who's friend and foe. You have no way of knowing, at a glance if that guy is with you, or against you. You could be shot in the back by someone you think is watching it. And either because he's the enemy, or he's incompetent, got scared, put his finger on the trigger before he's in high ready, and negligently discharged.

Yes. You fucking need organization. You don't even know who you're fighting. Do you even care?

You know why the PB are so successful? Because they're almost ALL ex military and they understand tactics, organization, and communication. Their is also a clear chain of command. Why do you think they wear desert brown flak jackets? It's not because they're worried about getting shot. It's a way to tell at a glance if you're an enemy or not. You'll see some that even have chevron's which indicate leadership. Someone to report to and look to for orders.

a million people won't have that and there will chaos, confusion, and a lot of people would needlessly die if you got your way.

People in Congress don't need to worry about that. They KNOW you'll never make it to the steps alive and they don't have to worry about trying to leave or enter. They'll take the underground tunnels. Areas you have no access to and they'll be lead to a car or helicopter and evacuated safely.

Trust me, Congress isn't worried about you.

This isn't an ARG. There are a frighteningly high amount of people here that are actively calling for violence and death by utilizing a flash mob. They don't understand that the only deaths would be on their side.

The point is that Trump can have 8 million pieces of evidence, but when he presents it and asks his most loyal people (us) to raise a stink about it, we instead talk about how it won't do anything and the only answer is civil war.

By November 13th it should have been clear to every governor in these "swing" states that their lives will never be free again if they don't get honest and straight. That they will be mercilessly hounded at every dinner, on their way to work, at their kid's school play, at their home, etc. Instead we fantasize about Trump having some magic plan.

These Georgia politicians should be given a new fear of God that they have never felt before. It's them that should be worrying about backup plans.

If presenting just the same thing we've had these past weeks is all he has then he should have done this Weeks ago not on Jan 6th. NOTHING will happen on 6th if hes not got some actual LEGAL and executive option to play. Else hes just been stringing everyone along once he realized everyone stabbed him in the back.

MSM - enemy #1 no support

Social media - No Support

DEMS - Spat on him for 4 years without consequence.

GOP - Backstabbers and spineless rats. Mitch, Lindsey and the rest have already shut him out. FFS they've already pressured Hawley not to challenge. Thats concrete proof the GOP wants Trump out. Yet hes still runnign around trying to get them elected.

FBI, DOJ - LOL corrupted traitors

SCOTUS - No moral fiber whatsoever (the very prerequisite for this position) Scared of the Dems knows GOP are pussies. Excels at forcing degeneracy, abortion and gun control down everyones throats.

Military - Didnt they already hint there wont be any support for anything to do with overturning the "official" results

Yeah hold the line some magic is going to happen ont the 6th. Maybe those UFOS/Aliens will make a difference.

I don't disagree with any of your points. But it isn't that relevant to what I'm saying.

This site is full of people getting angry behind their keyboard and thinking the very next gradient is to just machine gun half of America. I'm saying that we are skipping (and have been for weeks) a very important gradient:

1. sit at home, review evidence, get mad
2. write, call, email and hope common sense and legal processes prevail

3. get out there and show that we will not let this go and that RINO traitors will be hounded for the rest of their lives
4. end times

We are skipping 3. Kemp freely eats his steak dinners while laughing at us and Trump.

Trump will not call for violence and he won't call for deputation of civilians. He won't and he shouldn't. That would be CATASTROPHIC on multiple levels and WHEN it failed, he would be arrested and executed for sedition. 100%

fact. He'd be encouraging and antagonizing a civil war. He's not going to do that. That would destroy everything he's tried to build and everything he's ever stood against.

What you do is what you do. But if you think Trump is going to give you the thumbs up on you running around the capitol with an AR15 trying to assassinate senators and representatives, you're sorely mistaken.

After seeing how crazy this movie of life is I cannot say I would be surprised. I've pondered this idea myself - asking questions like 'why hasn't he released his tax returns' 'why is Hillary not in jail right now' and 'if we knew voter fraud was coming, why was nothing done about it before'. While I do sometimes fear he is in on it (possibly a tool to keep our heads turned and even having us call for martial law) I keep on landing on the idea that this movement is not about Trump - even if Trump is not genuine, the people of this movement are. Going to all these rallies (never went to an official one but I have done plenty of flag waving and caravans with State Trump groups) I know that the people on our side are fighting for good and for America. Our side is open minded (your comment is downvoted because this site is rightly suspicious of comments from new accounts as China has people attacking this website from within), I brought this up at a few rallies, no one calls me insane, some people say they have thought about it before, but alas, we all still support the movement.

I don't think it's us. CCP wants division. They want violence. They did very similar micro-targeting to leftist sites/forums to get them to protest/riot for George Floyd. The reports came out from the CCP Houston consulate, and why they got the boot

Sadly, I think a lot of the most violent larpers are foreign interference, trying to egg us on

Right before reddit community got the boot, there was a very similar uptick in these types of posts. They didn't seem anything like our community, and Reddit admins used it to ban the community. It wasn't us

I think so too, history and perceptions would not look righteous if Trump just starting pulling powerful dictator-like levers a long time ago, even if its benevolent. As many people as possible need to be shown what is going on and the cowards given an out, the chance to do the right thing. Then he can drop the hammer and few will object to him using those powers.

Democracy lives or dies on consent of the governed.

The latest hearings in GA and elsewhere have shown grave issues with fraud and call into question the legitimacy of the process.

We demand that the evidence be heard, that false statements be corrected, and a vote on decertification must be held.

Don't you think all the evidence should be detailed on all airwaves nationwide using the Emergency Broadcast Network? It's the only way you will get everyone in the USA to pay attention to it!

Please Mr President Expose all of it before the 6th!

It should all be exposed on the evening of the 5th and broadcast 24/7 through the 6th!

No American should be able to watch anything else!
